

ZEPOS & YANNOPOULOS

M&A and Project Development

We work with you to minimise risk and maximise opportunity

As one of the longest established Greek law firms, we apply a refreshingly modern approach, in tune with the contemporary demands of international business.

With 150 people, we are one of Greece’s largest firms, but the only one to offer you comprehensive legal and tax services.

Outstanding people

Our people are outstanding too – experts, who guide you through the ever changing maze of Greek rules, and assist you with detailed market knowledge.

Based on a deep understanding of your needs, we manage your project and bring it to a timely and beneficial conclusion. You find that we maintain the highest service standards in the global market.

In short, we take care of it. We keep you safe, and give you advice that helps to build a successful strategy and get the deal done.

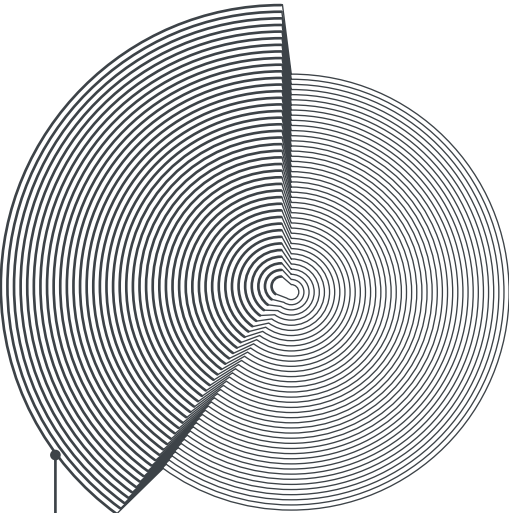

Industry-focused

When you commission our Mergers & Acquisitions practice, you engage experienced specialists.

Our people often lead the field. One of our partners, Professor Manos Mastromanolis, sat on the legislative committee for a new law on corporate mergers and transformations, and our partner Stefanos Charaktiniotis and his team are responsible for drafting annually the chapter on Greece in *Organizing an investment*, published by The Economist.

We have significant expertise in industries such as banking and financial services, education, energy , food and beverage, healthcare, hospitality and leisure, IT, media and entertainment,

non-profit, private equity, real estate and telecommunications.

You benefit

For your project we form a multi-disciplinary and industry-focused team, involving legal specialists from relevant practices, and where needed tax experts, accountants and economists to help you benefit from all the business and financial opportunities of the transaction.

However, you only have to deal with one person in our firm – a dedicated contact who leads our team that conducts and manages your project.

We are able to handle high volumes of complicated work within tight deadlines, such as due diligence. In this, you profit from the size of our firm, strength of support services in knowledge management, IT and systems, and rigorous quality controls.

One third of our staff works in business support. We continue to invest heavily in the development and training of the people who deliver your success.
