

Energy

A leading law firm

Our firm is one of the largest and longest established in Greece specializing in the provision of comprehensive legal and tax services to legal entities conducting business in Greece. Our firm is particularly active in the development of new business and investments for international and local market players.

The majority of our clientele (90%) is based outside of Greece while more than a third of our work originates from foreign law firms. This places us in a unique position to understand the needs of foreign based entities wishing to conduct business in Greece and guide them through the intricacies of the Greek legal system and commercial environment.

Our people include more than 190 talented professionals many of them with longstanding in-house industry experience. Our main strength lies in our capacity to combine resources from across disciplines to provide seamless and integrated solution focused advice.

A dynamic and innovative energy practice

Our firm's energy practice has been traditionally recognized as leading in the market and has undergone a major expansion during the past two years, more than doubling its size and growing into one of the biggest industry focused practices in the Greek market. Our practice structure, in terms of size as well as expertise, means that we are capable of successfully delivering on large-scale and complex transactions under tight time schedules.

We act on behalf of a diversified client portfolio including oil majors, prominent companies in the renewables sector, state owned enterprises, Regulatory Authorities and financial institutions. Our involvement in various projects, each from a different standpoint, gives us a unique insight and understanding of the industry thus enabling us to provide sophisticated and market savvy advice to our clients.

Outstanding track record

We have an outstanding track record both in transactional as well as in regulatory engagements. Recent highlights include: representing HELLENIC PETROLEUM in a 130m€ deal on a landmark project for the Greek and European renewable sector pertaining to the acquisition of a 204MW photovoltaic park and the construction and operation & maintenance of the park by JUWI Hellas; and the provision of legal support to a major oil company with respect to its hydrocarbon exploration and exploitation activities in Greece, including a major environmental litigation. We also act on behalf of key players in the context of the privatization of energy companies such as DEPA and of energy related infrastructure projects. Throughout the years our firm has assisted the Regulatory Authority of Energy (RAE) in setting forth the energy regulatory framework.

Why choose us

Engaging our firm means partnering with a team of multidisciplinary experts combining unparalleled transactional experience and understanding of the commercial aspects through in-depth knowledge of the regulation and the market. We are able to handle complex large scale transactions on a tight deadline. We offer solution-oriented impeccable advice leveraging our own in-depth experience and understanding of the market, along with the expertise from our colleagues from other disciplines, including tax and real estate. We not only assist our clients face their daily legal challenges, but also perceive the opportunities that can support their strategy for the future.

We are responsible

Just to mention two aspects of our social responsibility work: we donate to not-for-profit associations that support children in need, and we fund law student activities and run internships.

We are transparent

We are committed to conduct business to the highest ethical standards. This is why we have been selected as the Greek partner of Trace International.
