

Summer Internship Programme

Running since 2017, our summer internship programme is designed to give students who are interested in a career practicing law, an introduction to life in a full-service business law firm, while experiencing our unique culture. With the support and guidance of our partners and associates, our interns are encouraged to make decisions about their future career. This is also an excellent opportunity for all of us to build bonds with potential future colleagues.

2-week
internship

immersion
programme

15
practice areas

field trips

The two-week programme involves comprehensive training designed to support your ambitions and give you access to a broad range of in-depth materials. As you are placed in some of our major practice groups on a rotation basis, you get exposure to high-quality work, legal thinking and writing as you interact with highly skilled professionals. Our aim is to provide you with exceptional learning resources and opportunities, so that you get a sense of all practice areas. Your experience is supplemented by skills sessions and group tasks in order to get a realistic insight into what is essential to succeed in a law firm with international orientation. All this in an approachable and inclusive environment, where you have the chance to discuss with our people and share your thoughts and aspirations for the future. Our interns are also encouraged to develop their social skills by participating in field trips and social activities organised by our firm.

We accept applications for our Summer Internship Programme from students who have completed their second year of study and above. Candidates should submit a CV at hr_recruitment@zeya.com by 12.5.2023

Upon completion of the internship, interested interns who are in their final year of law school may be offered the opportunity to interview for a traineeship.
